Subject: FW: Invitation to Speak - CLA/RISE Webinar Next Week

Hi, Ed!

We had a few folks on yesterday afternoon's Massachusetts Mosquito Control Task Force call where you spoke, so I wanted to reach out to see if you might be willing to join us for a webinar, too! We're looking to host a RISE/CLA webinar in mid-February focused on *Background on HDPE, PFAS, and Pesticide Packaging*. This webinar will be very high-level, focused on sharing some background information on HDPE and PFAS, reviewing the timeline around EPA's announcement on PFAS in pesticide packaging, and highlighting some federal and state legislative activities around these issues.

Also invited to participate in the webinar are Robert Simon, Vice President, Chemical Products & Technology Divisions at the American Chemistry Council; Lynn Bergeson, Managing Partner at Bergeson & Campbell, PC; and Karen Reardon, Vice President of Public Affairs at RISE. I would moderate the webinar.

We are targeting 1.5 hours for the webinar and it will be held via Zoom. We invite you to take about 15-20 minutes for your comments, with the remaining time reserved for comments from your fellow panelists and a brief, moderated question-and-answer session with the audience. The webinar would be open to RISE and CLA members, only.

If you are willing to present, could you please:

1. **Share your availability for a 1.5-hour webinar on Thursday, February 11th or Friday, February 12th?** If those dates don't work, we'll work on identifying something the following week.
2. **Share a headshot and a short biography?**

Please don't hesitate to let me know if you have any questions. We hope you're able to join us and our members soon!

Thanks,
Megan

Megan J. Provost
President
